LADIES' SEVEN-GORE RIPPLE SKIRT.

Pattern Nos. 5680 and 5678.—A prominent feature of the season is the gimp effect in waist or bodice, shown to advantage in this charming costume developed in brown broad cloth. The color is rich and effective, and combines charmingly with the heavy cream colored lace which is used for the under body. The waist closes in the back and the pattern allows a choice of full length or elbow sleeves. The skirt is a very desirable seven-gored model in ripple effect. Strapped bands of the material are applied to the seams and add greatly to the smartness of the mode although they may be omitted if desired. Most of the season's fabrics are suited to the design such as taffeta, voile, cashmere and broadcloth. For a woman of 36-inch bust measure two and one eighth yards of material 44 inches wide will be required for the waist and five and three-quarter yards for the skirt. Ladies' Waist No. 5680. Sizes for 32, 34, 36, 38, 40 and 42 inches bust measure. Ladies' Seven-Gore Ripple Skirt No. 5678. Sizes for 20, 22, 24, 26, 28 and 30 inches waist measure. The above illustration calls for two separate patterns. The price is ten cents for the waist and ten cents for the skirt.

This pattern will be sent to you on receipt of 10 cents. Address all orders to the Pattern Department of this paper. Be sure to give size and number of pattern wanted. For convenience, write your order on the following coupon:

MISSSES' SHIRRED WAIST.

Pattern No. 5504.—Shirring forms one of the most attractive modes of decoration for young girls, and is shown to good advantage in this unusual pretty and becoming waist developed in reseda green albatross. The closing is in the back, and a fitted lining is used to support the full outer portions. The sleeves are in the fashionable puff style finished by a deep cuff. Louise, pongee, cashmere and challis are all appropriate for reproduction. The medium size will require two and one-fourth yards of 36-inch material. Sizes for 15, 16 and 17 years.

Old-Age Pensions.

In New South Wales old-age pensions amounting to \$130 a year have been granted to persons over 65 years of age who have been resident in the state 25 years and are in receipt of an income of not more than \$260 per annum.

Different Methods.

She—I always judge a man by the looks of his shoes. Don't you? He—Well, I think his head is something of an indicator.—Detroit Free Press.

TIRED BACKS.

The kidneys have a great work to do in keeping the blood pure. When they get out of order it causes backache, headaches, dizziness, languor and distressing urinary troubles. Keep the kidneys well and all these sufferings will be saved you. Mrs. S. A. Moore, proprietor of a restaurant at Waterville, Mo., says: "Before using Doan's Kidney Pills I suffered everything from kidney troubles for a year and a half. I had pain in the back and head, and almost continuous in the joints and felt weary all the time. A few doses of Doan's Kidney Pills brought great relief, and I kept on taking them until in a short time I was cured. I think Doan's Kidney Pills are wonderful."

Designs Patented by Women.

Not a few designs—some of them cleverly contrived—of fire escapes are credited to inventive women. Others have planned motors for sewing machines and other domestic aids; a thermometer fire alarm, which gives its warning when the temperature reaches a certain figure, a balcony that may be carried from one house to another and adjusted, a thread cutter that is fastened to the thumb, a furnace that generates heat by means of chemicals instead of ordinary fuel, and a great many similar contrivances.

Expert with Bow and Arrow.

Nero Perry an old Chickasaw freedman, who lives on Caddo creek, in the Chickasaw nation, supports himself by hunting game with a bow and arrow. Though 75 years old, he can send an arrow into a squirrel in the tallest tree. Perry went to the Chickasaw country in 1838 from Mississippi with Jim McIlish, his old master. They settled on the banks of the Caddo creek, where they built the first house erected in the Chickasaw nation. Here they lived until 1861, when McIlish died, then the old place reverted to Perry, and there he still lives.

AT THE SUMMER HOTEL.

Experience of Winston Churchill Familiar to Many.

Winston Churchill in an address that he made in Concord recently praised the New Hampshire farmer.

"Ours," he said, "is a state fitted above all others for a summer resort. New Hampshire, with its superb climate, its mountains, its lakes and forests, will in a generation or two be one great pleasure ground—a vast park, dotted with beautiful villas, to which will come each summer families from all parts of America."

"In anticipation of this many farmers are learning to conduct hotels. They are building cottages for summer visitors. Some of them, too, are taking boarders."

"And I am glad to say that the New Hampshire farmer is in a position to take boarders, because, unlike the farmers in other states that I could name, he does not send all his good things to the city. I once boarded at a fine big farm. But the fare was wretched—canned vegetables, condensed milk and so on."

"By Jove," I said one morning at breakfast, as I pushed my egg cup from me, 'these eggs are really not as fresh as those I get in New York.' My farmer host snorted."

"That's rank prejudice on your part, Mr. Churchill," he said. "It's from New York that all our eggs come."

LOOSE TEETH

Made Sound by Eating Grape-Nuts.

Proper food nourishes every part of the body, because Nature selects the different materials from the food we eat, to build bone, nerve, brain, muscle, teeth, etc.

All we need is to eat the right kind of food slowly, chewing it well—our digestive organs take it up into the blood and the blood carries it all through the body, to every little nook and corner.

If some one would ask you, "Is Grape-Nuts good for loose teeth?" you'd probably say, "No, I don't see how it could be." But a woman in Ontario writes:

"For the past two years I have used Grape-Nuts Food with most excellent results. It seems to take the place of medicine in many ways, builds up the nerves and restores the health generally."

"A little Grape-Nuts taken before retiring soothes my nerves and gives sound sleep." (Because it relieves irritability of the stomach nerves, being a predigested food.)

"All desire for pastry has disappeared and I have gained in health, weight and happiness since I began to use Grape-Nuts." Name given by Postum Co., Battle Creek, Mich. Get the famous little book, "The Road to Wellville," in pkgs. "There's a reason."

ALASKAN CABLE IS BUSY.

Line to Be Duplexed and 200 More Miles Added.

Few people who have not been over the ground have any conception of the wonderful development of Alaskan interests and trade. For instance, the commercial receipts from the Alaskan cable and telegraph lines for the month of July amounted to \$24,000. The rapid increase in the demands upon the system will be met by the government by duplexing the cable.

The cable ship Burnside, which is to install the duplexing apparatus at the Alaskan end of the cable, will carry about 200 miles of new cable for the extension of the service to Ketchikan. This extension will be effected by taping the lines from Sitka to Juneau at Cape Fanshaw. From that point a branch line will be extended down the Wrangell, then to Hadley on Prince of Wales island, and then to Ketchikan, which is only 60 miles from Fort Simpson, the English town which is to be the terminus of the Grand Trunk and Pacific railroads.

It is believed that this additional 200 miles of cable will largely increase the cable receipts, as it taps a country rich in mines, fishery and canning industries and greatly in need of daily communication with the United States. It is expected that this new line will be completed by November 1.—Pilgrim.

New Use for Gramophone.

Drilling native Malay levies by word of command emitted from a gramophone is the latest instance of modern ingenuity. Even the Zulu can now hear his own native songs and war dances from records made by a London company, who have sold more than 20 machines to swarthy warrior chiefs in South Africa. Folk-songs of the Pygmies were recently procured, and a machine has been dispatched to Lapland for the purpose, if possible, of procuring Eskimo folk songs.

Sheer white goods, in fact, any fine wash goods when new, owe much of their attractiveness to the way they are laundered, this being done in a manner to enhance their textile beauty. Home laundering would be equally satisfactory if proper attention was given to starching, the first essential being good starch, which has sufficient strength to stiffen, without thickening the goods. Try Defiance Starch and you will be pleasantly surprised at the improved appearance of your work.

Uruguay's Financial Condition.

Uruguay reduced her national debt by \$1,570,450 during 1905. The total debt on January 1, 1906, was \$21,455,747, of which about 80 per cent. was external. Uruguay is a prosperous country, and in her prosperity is a good customer of the United States. Exports of merchandise from this country to Uruguay for the nine months ending March 31, 1906, amounted to \$2,172,276, against \$1,200,542 in the same period of the previous year.

The extraordinary popularity of fine white goods this summer makes the choice of starch a matter of great importance. Defiance Starch, being free from all injurious chemicals, is the only one which is safe to use on fine fabrics. Its great strength as a stiffener makes half the usual quantity of starch necessary, with the result of perfect finish, equal to that when the goods were new.

Remarkable Double Wedding.

A remarkable double wedding has been celebrated in a Viennese church. A manufacturer named Muller married a widow, while at the same time his son married the widow's daughter. Thus the father becomes the father-in-law of his own son, and the mother also the mother-in-law of her daughter.

Defiance Starch is the latest invention in that line and an improvement on all other makes; it is more economical, does better work, takes less time. Get it from any grocer.

NO REST NIGHT OR DAY.

With Irritating Skin Humor—Hair Began to Fall Out—Wonderful Result from Cuticura Remedies.

"About the latter part of July my whole body began to itch. I did not take much notice of it at first, but it began to get worse all the time, and then I began to get uneasy and tried all kinds of baths and other remedies that were recommended for skin humors; but I became worse all the time. My hair began to fall out and my scalp itched all the time. Especially at night, just as soon as I would get in bed and get warm, my whole body would begin to itch and my finger nails would keep it irritated, and it was not long before I could not rest night or day. A friend asked me to try the Cuticura Remedies, and I did, and the first application helped me wonderfully. For about four weeks I would take a hot bath every night and then apply the Cuticura Ointment to my whole body; and I kept getting better, and by the time I used four boxes of Cuticura I was entirely cured, and my hair stopped falling out. D. E. Blankenship, 319 N. Del. St., Indianapolis, Ind., Oct. 27, 1905."

PENNIES FOR A COLLEGE.

One Hundred Thousand Workers Each Give a Penny to Ruskin College.

The British trade unions had not in their origin any direct concern with education, says the Fortnightly Review. But it is a fact of no ordinary significance that some of the leading unions should be taking very great interest in the higher education of the workman.

For the last three years some 100,000 workmen, members of the Amalgamated Society of Engineers, have made three levies of one penny each to help on the work of Ruskin college at Oxford. This levy produces over £300 a year, and by means of it six engineers are maintained for a year's course of study at the college.

Smaller but substantial sums have been contributed to the same institution by the London Society of Composers, by the Lanarkshire Miners' County Union, by the Amalgamated Association of Beavers, Twisters and Drawers, by the Derbyshire miners and the Durham miners, while a large number of other societies appear among the donors and subscribers.

Washing Windows.

The method of washing windows has changed very much of late. Have a pair of lukewarm suds made from Ivory Soap. Dip a soft cloth in the water; squeeze almost dry, and wipe the glass off. Then polish with chambray as it leaves no lint and does the work with more ease. ELEANOR R. PARKER.

What He Most Wanted For.

John Fiske, the American historian, was an ardent lover of music and himself no mean musician. Furthermore, he was extremely corpulent and felt the hot weather painfully. He was once delivering a course of lectures at a summer school in a small city of the middle west. The heat was terrific and adjoining the house where the lecturer stayed was a church where an ill-matched but zealous "quartet" practiced and performed during all hours of the torrid afternoons and evenings. One evening, seeing the famous man sit for a time unoccupied and apparently oppressed by this combined affliction, the young daughter of his hostess attempted to divert him by offering him a new novel, then just becoming popular. "I think 'The Choir Invisible' is perfectly splendid, Mr. Fiske," said she. "Wouldn't you like to read it?" The historian put the book aside. "My dear young lady," said he, "the only choir in the world in which I could feel any interest at this moment would be the choir invisible."
